Summary

Computer Science student specializing in AI and ML, passionate about solving real-world problems through technology.

Experience

AICTE- Internship on AI: Transformative Learning

Edunet Foundation · Internship

Dec 2024 - Jan 2025 · 2 months

Education

VIT Bhopal University Bhopal, Madhya Pradesh

BTech CSE (AI & ML) Expected May 2027

Cumulative CGPA: 9.04 (3rd Year)

12th Standard

School Of Excellence Dwarka Sec-22, New Delhi CBSE

Percentage: 88.6 2023

10th Standard

School Of Excellence Dwarka Sec-22, New Delhi CBSE

Percentage: 90.0 2021

Skills

Python, C++, Java, HTML, CSS, Javascript, Flask, React JS

Projects

AI Student Assistance Website (Team College Project)

- Developed a student productivity web platform using Flask and PostgreSQL.
- Implemented Pomodoro Timer, To-Do List, Calendar Integration, and AI Flashcard Generator.

Human Pose Estimation Using Machine Learning

- Built a real-time human pose detection system to identify body keypoints and analyze posture.
- Implemented using the OpenPose CNN model for accurate pose estimation.

SafeWalk – AI-Powered Fall Detection Web App (Hackathon Project)

- Developed a camera-based fall detection app using TensorFlow.js with no wearables required.
- Built using Next.js, React 19, Tailwind CSS, and TypeScript for real-time monitoring.

Extracurriculars

- Secured 3rd Place – CodeVerse Hackathon 2025, building SafeWalk; ranked top 3 among 200+ teams.
- Core Member, Design Team – Vitera Club (2024–2025).
- Core Member, Design Team – Anterix Club (2024–2025).
